DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The communication filed on April 13, 2006 is not deemed to be fully responsive to the Office action dated March 13, 2006 because this communication fails to comply with all of the requirements contained in said Office action. The previous Office action contains an election of species requirement if the invention of Group II is elected (see page 2, last paragraph through page 3, third paragraph). Since Applicant elected the invention recited in claims 26-35 (i.e. Group II), Applicant must also elect a single disclosed anionic contaminant species, and must list all claims readable thereon. The above noted communication fails to do so, and is therefore non-responsive.

Since the above noted communication appears to be *bona fide*, Applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment of the application. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to I. Cintins whose telephone number is 571-272-1155. The examiner can normally be reached on Monday through Friday from 8:30 AM to 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Duane Smith, can be reached at 571-272-1166.

The centralized facsimile number for the USPTO is **571-273-8300**.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR.
